Computer: Software, Keyboard Shortcuts & Glossary

50 Questions • 30 Minutes

Instructions:

- Each question has 4 options (A, B, C, D).
- The correct answer is shown on the right side of each question.
- Detailed explanations with textbook page references are at the end.

Questions

Q1. Computer programs are written using special languages called:

- A. Human languages
- B. Programming languages
- C. Sign languages
- D. Musical languages

Ans: B

Q2. There are several programming languages. Each has its own:

- A. Color
- B. Grammar called its syntax
- C. Sound
- D. Shape

Ans: B

Q3. Machine level and Assembly language are examples of:

- A. High-level languages
- B. Low-level languages
- C. Web languages
- D. Database languages

Ans: B

Q4. A special program called Assembler converts all instructions into:

- A. High-level language
- B. The binary format
- C. Natural language
- D. HTML

Ans: B

Q5. Because all such instructions must finally be converted to binary form, all high-level languages have their own translator programs called:

- A. Assemblers
- B. Compilers or Interpreters
- C. Browsers
- D. Editors

Ans: B

Q6. Software relates to set of programs. The software that makes the computer hardware parts operational is called:

- A. Application software
- B. Operational (system) software
- C. Utility software
- D. Game software

Ans: B

Q7. Examples of popular high-level languages are:

- A. Assembly only
- B. C, C++, Java, FORTRAN, Pascal
- C. Machine code only
- D. Binary only

Ans: B

Q8. Operating systems like Unix, MS-DOS, Linux, Windows, Mac OS are some of: A. Application software B. The most popular operating systems used by computers C. Games D. Viruses	Ans: B
Q9. The most important system's program is: A. Word processor B. Operating system C. Calculator D. Media player	Ans: B
Q10. Another popular type of application programs is the Database Management Systems (DBMS). A common term used for application programs that permit text editing is: A. Spreadsheet B. Word processors C. Calculator D. Media player	Ans: B
Q11. Software is generally divided into two kinds: A. Big and Small B. System Software and Application Software C. Free and Paid D. Old and New	Ans: B
Q12. The keyboard shortcut Ctrl + A is used for: A. Bold B. Select All C. Copy D. Paste	Ans: B
Q13. The keyboard shortcut Ctrl + B is used for: A. Select All B. Bold C. Copy D. Italic	Ans: B
Q14. The keyboard shortcut Ctrl + C is used for: A. Bold B. Copy C. Cut D. Paste	Ans: B

Q15. The keyboard shortcut Ctrl + D is used for: A. Copy B. Font Dialogue Box C. Delete D. Duplicate	Ans: B
Q16. The keyboard shortcut Ctrl + E is used for: A. Bold B. Centre Alignment C. Exit D. Edit	Ans: B
Q17. The keyboard shortcut Ctrl + I is used for: A. Insert B. Italics C. Image D. Indent	Ans: B
Q18. The keyboard shortcut Ctrl + J is used for: A. Jump B. Justified Alignment C. Join D. Junk	Ans: B
Q19. The keyboard shortcut Ctrl + N is used for: A. Next page B. Opens New blank document C. New folder D. Number	Ans: B
Q20. The keyboard shortcut Ctrl + O is used for: A. Output B. Opens existing document C. Options D. Outline	Ans: B
Q21. The keyboard shortcut Ctrl + R is used for: A. Redo B. Right Alignment C. Replace D. Refresh	Ans: B
Q22. The keyboard shortcut Ctrl + Esc is used for: A. Exit program B. Displays the Start Menu in the Windows OS C. Escape D. Close	Ans: B

Q23. The keyboard shortcut PrtScn is used for: A. Print document B. Print screen / Take a screen shot C. Preview D. Properties	Ans: B
Q24. The keyboard shortcut Alt + Tab is used for: A. Open new tab B. Switch to next opened program C. Close tab D. New tab	Ans: B
Q25. The keyboard shortcut Ctrl + End is used to: A. Delete B. Go to end of a File/Worksheet C. End program D. Shutdown	Ans: B
Q26. The keyboard shortcut Ctrl + Home is used to: A. Go to desktop B. Go to beginning of a File/Worksheet C. Home page D. Start menu	Ans: B
Q27. The keyboard shortcut Alt + Shift + Tab is used to: A. Open new window B. Switch to previous opened Program C. Close window D. Minimize	Ans: B
Q28. The keyboard shortcut Alt + F4 is used to: A. Open file B. Close windows/Shut down C. Find D. Format	Ans: B
Q29. The keyboard shortcut Ctrl + Z is used for: A. Zoom B. Undo C. Zero D. Zip	Ans: B
Q30. The keyboard shortcut Ctrl + Y is used for: A. Yield B. Redo C. Yes D. Year	Ans: B

Q31. The keyboard shortcut Ctrl + W is used to: A. Open window B. Close File C. Write D. Wide	Ans: B
Q32. The keyboard shortcut Ctrl + P is used for: A. Paste B. Print C. Preview D. Page	Ans: B
Q33. The keyboard shortcut Ctrl + U is used for: A. Undo B. Underline C. Upload D. Update	Ans: B
Q34. The keyboard shortcut Ctrl + K is used for: A. Kill B. Hyperlink C. Keyboard D. Keep	Ans: B
Q35. The keyboard shortcut Ctrl + S is used for: A. Select B. Save C. Search D. Sort	Ans: B
Q36. The keyboard shortcut F7 is used for: A. Find B. Spell Check C. Format D. File	Ans: B
Q37. The keyboard shortcut F2 is used for: A. Find B. Edit/Rename C. Format D. File	Ans: B
Q38. The keyboard shortcut F5 is used for: A. Find B. Go to C. Format D. File	Ans: B

Q39. ALU stands for: A. Advanced Logic Unit B. Arithmetic Logic Unit C. Automated Logic Unit D. Applied Logic Unit	Ans: B
Q40. BIOS stands for: A. Binary Input Output Signal B. Basic Input Output System C. Basic Internal Operating System D. Binary Integrated Operating Software	Ans: B
Q41. Boot Loader reads the main portion of the operating system from: A. RAM B. Secondary memory C. Cache D. ROM	Ans: B
Q42. Bit is the short form of: A. Binary Term B. Binary Digit C. Binary Data D. Byte Information	Ans: B
Q43. A program stored in ROM is called: A. Software B. BIOS (firmware) C. Application D. Virus	Ans: B
Q44. Batch Processing means: A. Single processing B. Data are processed in a batch C. No processing D. Random processing	Ans: B
Q45. CU stands for: A. Central Unit B. Control Unit C. Computing Unit D. Core Unit	Ans: B
Q46. Browsing means: A. Printing documents B. Viewing webpages on the website C. Deleting files D. Writing programs	Ans: B

Q47. Byte is defined as:

- A. 4 bits
- B. One byte is a collection of 8 bits
- C. 16 bits
- D. 32 bits

Ans: B

Q48. Cell in a spreadsheet refers to:

- A. A single row
- B. Boxes created by the intersection of rows and columns
- C. A single column
- D. A header

Ans: B

Q49. A Cracker is a person who breaks into a:

- A. Bank vault
- B. Computer system to steal information as programs for unauthorized use
- C. House
- D. Car

Ans: B

Q50. Copyright means the material and information are the property of:

- A. Everyone
- B. The owner or producer
- C. The government only
- D. No one

Ans: B

Answer Key & Explanations

Q1. Answer: B — Programming languages

Page 493: Computer programs are written using special languages called programming languages.

Topic: Software

Q2. Answer: B — Grammar called its syntax

Page 493: Each programming language has its own grammar called its syntax.

Topic: Software

Q3. Answer: B — Low-level languages

Page 493: Machine level and assembly language are examples of low-level languages.

Topic: Software

Q4. Answer: B — The binary format

Page 493: A special program called Assembler converts all instructions into the binary format.

Topic: Software

Q5. Answer: B — Compilers or Interpreters

Page 493: All high-level languages have their own form of translator—programs called compilers or interpreters.

Topic: Software

Q6. Answer: B — Operational (system) software

Page 493: Software relates to set of programs. Software that makes hardware parts operational is called operational/system software. In other words, it governs the operations of a computer system.

Topic: Software

Q7. Answer: B — C, C++, Java, FORTRAN, Pascal

Page 493: Examples of popular high-level languages are C, C++, Java, FORTRAN, Pascal.

Topic: Software

Q8. Answer: B — The most popular operating systems used by computers

Page 493: Unix, MS-DOS, Linux, Windows, Mac OS are some of the most popular operating systems.

Topic: Software

Q9. Answer: B — Operating system

Page 493: The most important system's program is the operating system.

Topic: Software

Q10. Answer: B — Word processors

Page 493: A common term for application programs for text editing is word processors.

Topic: Software

Q11. Answer: B — System Software and Application Software

Page 493: Software generally divided into two kinds of programs: system software (collectively called the hardware) and application programs.

Topic: Software

Q12. Answer: B — Select All

Page 493: Ctrl + A = Select All.

Topic: Shortcuts

Q13. Answer: B — Bold

Page 493: Ctrl + B = Bold.

Topic: Shortcuts

Q14. Answer: B — Copy

Page 493: Ctrl + C = Copy.

Topic: Shortcuts

Q15. Answer: B — Font Dialogue Box

Page 493: Ctrl + D = Font Dialogue Box.

Topic: Shortcuts

Q16. Answer: B — Centre Alignment

Page 493: Ctrl + E = Centre Alignment.

Topic: Shortcuts

Q17. Answer: B — Italics

Page 493: Ctrl + I = Italics.

Topic: Shortcuts

Q18. Answer: B — Justified Alignment

Page 493: Ctrl + J = Justified Alignment.

Topic: Shortcuts

Q19. Answer: B — Opens New blank document

Page 493: Ctrl + N = Opens New blank document.

Topic: Shortcuts

Q20. Answer: B — Opens existing document

Page 493: Ctrl + O = Opens existing document.

Topic: Shortcuts

Q21. Answer: B — Right Alignment

Page 493: Ctrl + R = Right Alignment.

Topic: Shortcuts

Q22. Answer: B — Displays the Start Menu in the Windows OS

Page 493: Ctrl + Esc = Displays the Start Menu in the Windows OS.

Topic: Shortcuts

Q23. Answer: B — Print screen / Take a screen shot

Page 493: PrtScn = Print screen / Take a screen shot.

Topic: Shortcuts

Q24. Answer: B — Switch to next opened program

Page 493: Alt + Tab = Switch to next opened program.

Topic: Shortcuts

Q25. Answer: B — Go to end of a File/Worksheet

Page 493: Ctrl + End = Go to end of a File/Worksheet.

Topic: Shortcuts

Q26. Answer: B — Go to beginning of a File/Worksheet

Page 493: Ctrl + Home = Go to beginning of a File/Worksheet.

Topic: Shortcuts

Q27. Answer: B — Switch to previous opened Program

Page 493: Alt + Shift + Tab = Switch to previous opened Program.

Topic: Shortcuts

Q28. Answer: B — Close windows/Shut down

Page 493: Alt + F4 = Close windows/Shut down.

Topic: Shortcuts

Q29. Answer: B — Undo

Page 493: Ctrl + Z = Undo.

Topic: Shortcuts

Q30. Answer: B — Redo

Page 493: Ctrl + Y = Redo.

Topic: Shortcuts

Q31. Answer: B — Close File

Page 493: Ctrl + W = Close File.

Topic: Shortcuts

Q32. Answer: B — Print

Page 493: Ctrl + P = Print.

Topic: Shortcuts

Q33. Answer: B — Underline

Page 493: Ctrl + U = Underline.

Topic: Shortcuts

Q34. Answer: B — Hyperlink

Page 493: Ctrl + K = Hyperlink.

Topic: Shortcuts

Q35. Answer: B — Save

Page 493: Ctrl + S = Save.

Topic: Shortcuts

Q36. Answer: B — Spell Check

Page 493: F7 = Spell Check.

Topic: Shortcuts

Q37. Answer: B — Edit/Rename

Page 493: F2 = Edit/Rename.

Topic: Shortcuts

Q38. Answer: B — Go to

Page 493: F5 = Go to.

Topic: Shortcuts

Q39. Answer: B — Arithmetic Logic Unit

Page 493: ALU: It stands for Arithmetic Logic Unit. All calculations in computer are done here.

Topic: Glossary

Q40. Answer: B — Basic Input Output System

Page 493: BIOS: It stands for Basic Input Output System.

Topic: Glossary

Q41. Answer: B — Secondary memory

Page 493: Boot Loader: It reads the main portion of the operating system from secondary memory.

Topic: Glossary

Q42. Answer: B — Binary Digit

Page 493: Bit: It is the short form of Binary Digit.

Topic: Glossary

Q43. Answer: B — BIOS (firmware)

Page 493: BIOS/program is stored in ROM.

Topic: Glossary

Q44. Answer: B — Data are processed in a batch

Page 493: Batch Processing: Data are processed in a batch.

Topic: Glossary

Q45. Answer: B — Control Unit

Page 493: CU: It stands for Control Unit. It controls the computer system.

Topic: Glossary

Q46. Answer: B — Viewing webpages on the website

Page 493: Browsing: Viewing webpages on the website.

Topic: Glossary

Q47. Answer: B — One byte is a collection of 8 bits

Page 493: Byte: One byte is a collection of 8 bits.

Topic: Glossary

Q48. Answer: B — Boxes created by the intersection of rows and columns

Page 493: Cell: Cells are boxes created by the intersection of rows and columns.

Topic: Glossary

Q49. Answer: B — Computer system to steal information as programs for unauthorized use

Page 493: Cracker: A cracker is a person who breaks into a computer system to steal information as programs for unauthorized use.

Topic: Glossary

Q50. Answer: B — The owner or producer

Page 493: Copyright: It means the material and information are the personal property of the owner or producer.

Topic: Glossary
